

INSTITUTE OF NONDESTRUCTIVE TESTING & TRAINING

**Are you seeking the best training for your key inspection engineers!
Choose the best in NDT industry today.
Training from Level III in all methods will make a difference!**

- ☞ With its principal faculty being certified ASNT NDT Level III in all ASNT methods currently offered by ASNT.
- ☞ We are the best for NDT Level II training for all NDT methods, Conventional & Advanced.
- ☞ Our training makes a difference that it provides what every leading company is looking for its employees !
- ☞ Our training prepares your delegates to directly handle your key NDT assignments boosting the productivity & also prepares your engineers to be able to further their career.
- ☞ We are the first choice for NDT Level II / Level III, API 510, 570, 577, 580 & 936 certification training/ AWS CWI Training.
- ☞ We have had relatively highest success rate with our students in passing ASNT LEVEL III & API examinations.
- ☞ Our past success rate in API Authorized Inspector Certification examination and Level III examination speaks for itself.

INSTITUTE OF NONDESTRUCTIVE TESTING & TRAINING

INTRODUCTION

INDTT is a premier institute that offers broad range of testing and training services and has proven itself over the years, having selected by some most world renowned companies in India and abroad.

The company has proven itself in providing finest training for ASNT NDT Level III examination, API & AWS certifications in particular.

We're proud that our commitment to quality training and reliable NDT inspections has earned us such respect.

We have been offering training in the area of NDT, Welding, Metallurgy, Pressure vessels, Storage tanks, Quality control, and a host of many others.

On testing front INDTT has spent years of experience in NDT technology building a set of capabilities that is unparalleled by any other company.

INDTT has been able to cater to majority of NDT inspections required by different industries using state of the art equipment and highly skilled manpower. We are able to offer major NDT disciplines and provide services on site or in-house including but not limited to :

- ☞ Radiographic Testing (Gamma & X-Ray)
- ☞ Ultrasonic Testing (Thickness Gauging & Shear wave Inspection of welds)
- ☞ Ultrasonic Testing TOFD
- ☞ Ultrasonic Testing Phased Array
- ☞ Ultrasonic Testing C-Scan
- ☞ Magnetic Particle Inspection (Yoke / Prod. & Coil Techniques)
- ☞ Liquid Penetrant Inspection (Fluorescent & Visible)
- ☞ Visual Inspection (Video boroscopes)
- ☞ Eddy Current Examination (Heat Exchanger Tubing)
- ☞ Leak Test (Halogen & Mass Spectrometer)
- ☞ Thermal Imaging
- ☞ Acoustic Emission Tests (Vessels, Tanks & Piping)
- ☞ Magnetic Flux Leakage MFL
- ☞ Positive Material Identification PMI

Our team is committed to providing a high quality, customer focused service to suit your requirements. We understand the need for a prompt response time to ensure you achieve productivity and reduce costly downtime.

INSTITUTE OF NONDESTRUCTIVE TESTING & TRAINING

INDTT TRAINING SERVICES

INDTT is a place our customers can rely on for quality NDT training. We introduce NDT to your engineers or managers and provide them comprehensive training with hands-on practical to help acquire ASNT Level I / II / III certifications to further their careers.

Our training methods have been unique with complete audio visuals and specifically tailored to each industry and yet very cost effective. We are proud to assure you that the NDT training we have been offering is perhaps the best in industry with our trainers having over thirty years of teaching experience and holding Level III qualifications in all NDT disciplines and have conducted NDT training for Level I / II & Level III for many companies in India and abroad. NDT Training courses can be developed to fit your company's specific training requirements and can be conducted at your facility or at our training center in India and Middle East.

We provide an in-depth fundamental knowledge of each NDT technique along with complete & intense hands-on training to develop your individuals fully to be able to directly take up all your key NDT assignments as per your requirements. Our each course is backed by additional demonstration through videos & power point presentations that have been specially developed by our instructors keeping in mind the requirement of our students to actually see several different material processes, testing and the way defects crop up, something they have not been able to see in the course of their routine work.

So if you're looking for the best ever training & certification in NDT and look forward to have your inspectors & engineers properly trained qualified and certified to ASNT NDT Level II / Level III, then we assure you to fulfill the same.

Apart from making a determination to offer you the best in NDT & Welding we also make sure to provide you most realistic rates and attractive packages for sizable number of candidates.
